

## Syllable Blending

Consider using the following activities at home with your child:

- ★ Can you blend (put together) these syllables to make a word?”
  - in - sect → insect
  - stu - dent → student
  - gym - nas - tics → gymnastics
  
- ★ Categories: Think of a category (animals, sports, things at school). Ask your child to blend (put together) the syllables to make the word. Example: “I am thinking of some pets, can you tell me what they are?” ham - ster→ hamster pup - py → puppy kit - ten→ kitten
